The Icelandic Lamb lives most of its life in the highland pastures in one of the most virgin landscapes in the world. Since the settlement of Iceland by Vikings around 900 AD, the import of farm animals has been prohibited and long-standing regulations on the feed of Icelandic livestock make the raw materials for this product pure, and most importantly, healthy for your dog.

Reduces tartar and plaque build-up for healthier gums and teeth

Cleaned, boiled and baked within FDA, USDA, EU and MAST standards and regulations

Manufacturer:
IcelandicPLUS
